

M&S Armaturen GmbH

PARTNER NOT JUST SUPPLIER.

## More success with M&S products:

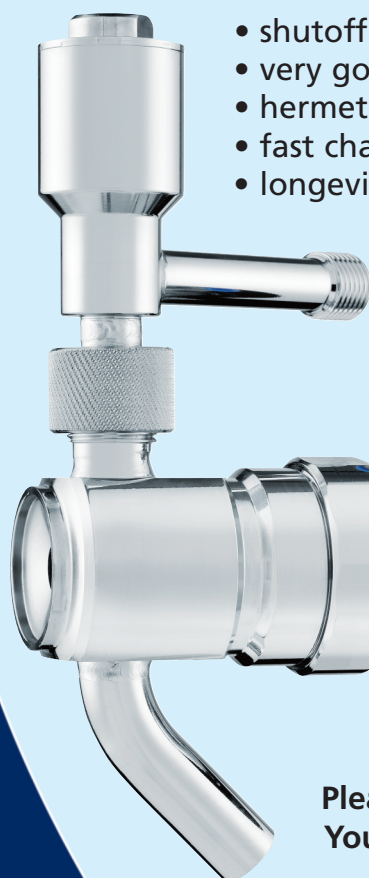

# The new **EHEDG** certified valve for aseptic sampling

We are living our slogan „partner not just supplier” – so it’s very important for us to raise the efficiency for our customers production with our innovative products.

M&S presents the new EHEDG certified valve for aseptic sampling (also supply with a steam valve). This makes it possible to sample liquids from tanks and pipes in a safe way. Application areas for the new sampler are the beverage and food industry as well as the pharmaceutical and cosmetic sector.

### at a glance – product characteristics:

- shutoff close to liquids
- very good purification capacity
- hermetically sealed device
- fast changing of gaskets
- longevity of gasket by metallic delimitation
- design without dead spots

### convincing advantages of the new sampler:

- possibility to weld into tanks and pipes
- opening and closing via hand wheel
- hand wheel and pneumatic actuator
- one outlet
- second connection for sterilization
- second connection with steam valve
- final position indicator with proximity switch
- different elastomer materials
- material type 1.4435 / AISI 316L
- operating pressure til 10bar

Please convince yourself of these advantages.  
You are more than welcome to contact us!
